EXAMINER'S ACTION

This is in response to the communication filed 29 July 2003.

Only one claim is in the application claim 1 is again rejected under 35 U.S.C. 112 (par 2) as being vague and indefinite, and for failing to particularly point out and distinctly claim the subject matter which applicants regard as their invention. The term "analog" is overly broad and covers more territory than the specification could possibly support. Applicants can overcome the rejection by inserting formulas I and II as set forth on pages 2 and 3 of the specification.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
